RE: Parking Lot Closures

Attention: Michael Tully

After several years of meetings, discussions, and advocacy a multitude of local organizations have called upon the Ocean Beach MainStreet Association to support a request for additional restrictions and rules for Ocean Beach Parking lots. The board of directors has collectively come to the decision that new rules and restrictions would not be in the best interest of our merchants and local businesses. The issues at hand, overnight parking, large gatherings, littering, drug use, fireworks, etc. ... will not be solved by creating more rules but would be served better by the city meeting its commitment to prior policies and laws.

The Ocean Beach MainStreet Association urges the city to strictly enforce existing city laws and rules regarding parking in city lots. Specifically, OBMA has a vested interest in adherence to policies already in place for the Ocean Beach Pier Parking lot and Santa Monica Lifeguard Parking Lot. The focus and goal of OBMA is support our merchants, and their local and tourist customers, this includes providing access to safe and clean parking lots.

OBMA has been discouraged by the lack of support of our city leaders and various city agencies that are responsible for the enforcement and management of the current city laws regarding parking in the aforementioned lots. We embrace the opportunity to partner with our city representatives, their teams and various city departments empowered with exacting change and betterment within the Ocean Beach community.

Thank you for your continued support of the Ocean Beach MainStreet Association, our businesses and our resident community.

Regards,
